PROFESSIONAL SUMMARY

Proven experience developing consumer-focused web sites using HTML, CSS, JQuery, Angular, Wordpress and JavaScript. Use Adobe Creative Suite programs, e.g., Photoshop, Illustrator and figma to mockup UI elements. Experience building products for desktop, phone and mobile app users, meeting highest standards for web design, user experience, best practices, usability and speed. Use visual aids such as wireframes, storyboards and UI flow charts, to plan and present user interface designs. Responding to challenges by designing and developing solutions and building web applications aligned to customer's services.
