

SIVAKAMI SADASIVAN

Senior UI/UX Designer | Digital Product and Experience Design

Dubai, UAE | +971 54 489 3205 | sivakami.sadasivan@gmail.com | Visa Status: Spouse Visa

Portfolio: <https://sivakamii.github.io/sivakami/>

PROFESSIONAL SUMMARY

Senior UI/UX Designer with 7+ years of experience designing enterprise web applications, responsive websites and interactive digital experiences. Covers the design lifecycle from client discovery and requirements gathering to user flows, wireframes, high-fidelity prototypes, developer handoff and user acceptance testing (UAT). Combines Figma design expertise with hands-on HTML, CSS and JavaScript implementation to connect approved designs with working interfaces. Experienced in client collaboration, on-site validation and PADS4 digital signage delivery.

CORE SKILLS

UX and UI design: User experience (UX), user interface (UI), interaction design, responsive design, user flows, wireframing, high-fidelity prototyping, design systems and UI components.

Design delivery: Requirements gathering, developer handoff, design quality assurance (QA), UAT test cases, on-site testing, client demonstrations, training and Agile/Scrum collaboration.

Tools and technologies: Figma, HTML5, CSS3, JavaScript, Bootstrap, WordPress, PADS4 CMS, Adobe Photoshop, Adobe Illustrator and Adobe After Effects.

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer - Experience Systems Architect

FinesseTech IT Solutions | Dubai, UAE | Sep 2022 - Present

- Lead UX/UI delivery from client discovery and requirements gathering through design, implementation support, testing and deployment, keeping interfaces aligned with operational workflows and user needs.
- Translate requirements into user flows, wireframes and high-fidelity prototypes that communicate screen layouts, navigation and interaction behaviour to clients and development teams.
- Design responsive web interfaces and interactive experiences for meeting-room displays, kiosks, information screens and digital signage, adapting content presentation to each screen context.
- Build prototypes in Figma and implement frontend interactions using HTML, CSS and JavaScript; collaborate with developers to align delivered interfaces with approved designs and functional requirements.
- Prepare client UAT test cases and validate screen layouts, content, interactions and system behaviour on site; coordinate issue resolution with development teams before delivery.
- Work with PADS4 CMS on content presentation, scheduling and screen deployments; support client demonstrations, training and post-implementation design refinements.

Web & Graphics Designer

FittGROUP | Dubai, UAE | Feb 2020 - May 2021

- Designed and developed responsive websites from concept to launch using HTML, CSS, JavaScript and WordPress, translating visual concepts into working web pages.
- Redesigned website layouts and visual elements to reflect evolving brand standards and maintain a consistent presentation across digital channels.
- Created brochures, banners and social media creatives with Adobe Illustrator and Photoshop, adapting brand visuals for print and digital formats.

UI Designer

Speridian Technologies | India | Sep 2017 - Dec 2019

- Created high-fidelity prototypes and UI designs for large-scale enterprise applications within Agile/Scrum teams, translating application requirements into clear screen layouts and user flows.
- Implemented responsive frontend features using HTML, CSS, Bootstrap and JavaScript for Angular-based projects, connecting interface designs with application development.
- Collaborated with backend developers and communicated design decisions through wireframes, mockups and user flows to support implementation of the intended interface behaviour.

SELECTED PROJECTS

Enterprise Digital Experience and Signage Systems

Designed interactive experiences for meeting-room displays, information screens, kiosks and digital signage. Contributed across interface design, content presentation, PADS4 configuration, on-site validation and deployment support.

Meeting Room Booking Web Application

Designed booking flows and a responsive user interface for a proof of concept. Implemented the frontend prototype using HTML, CSS and JavaScript to demonstrate the booking experience and screen interactions.

ASV UAE Corporate Website and Brand Identity

Created the brand identity and a responsive corporate website, carrying the work through visual design, website development and hosting management to establish a consistent company presence online.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Rajadhani Institute of Engineering and Technology, Kerala University

India | 2012 - 2016
